What Makes Us Different

At Bralca Cold Store Ltd., our commitment to personalization sets us apart in the cold storage industry. Unlike larger, more impersonal providers, we pride ourselves on offering bespoke storage and distribution solutions that are meticulously tailored to the specific needs of our clients. This personalized approach ensures that every aspect of our service — from storage conditions to delivery schedules — is aligned with the unique requirements of each customer.

Our strategic location near major roads like the M7, M9, and M50 uniquely positions us to provide swift and reliable distribution services across Ireland and the UK. This logistical advantage, combined with our BRC Accreditation and strict adherence to the standards set by the Department of Agriculture, Food, and the Marine, ensures that we not only meet but exceed the industry standards for safety and quality. Our clients have a partner who is as invested in the safety and management of their products as they are.
